

Lighting pole

Outdoor arena 20x40m with 400 watt hq lighting

The lighting pole is the best and the cheapest solution to illuminate your property.

It offers many advantages over the lamppost or other light poles. The masts are suitable for use at both warehouses, riding arenas, ice rinks, tennis courts and cycling tracks, as well as construction sites, loading and unloading areas and other (sports) grounds.

The lighting mast in brief:

- Light fixture with 400 watt hq Philips lamp
- Energy Saving
- Tiltable from ground level; easy maintenance and cleaning
- Made of aluminum with galvanized steel tilt anchor
- Lamps are adjustable 180 degrees
- Stormproof

The masts are 8 meters high and are delivered throughout the Netherlands, Belgium and Germany.
